

To all FASTRON Customers

19th August 2010

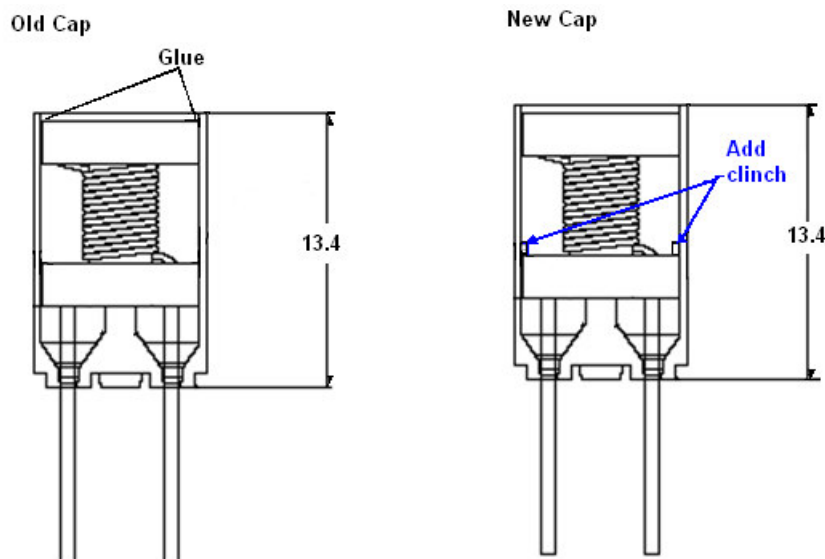

Ref no: 000610

Concerning Part Name: 09P/F series

Product Type: Plugable Inductor

Classification of Change: Mechanical

Description of Change: To eliminate the glue used for fixing the cap onto the core by adding a mechanical clinch on two sides located on the inside of the cap.

Note: All dimensions in mm

Reason: To continually improve our inductors by making them and the process more environmental friendly.

Expected Influence: No influence in electrical parameters.

Product Identification: Not applicable

Product Availability: Production lot from week 44 onwards
