

Product Change Notice (PCN)

To all FASTRON Customers

Date: 25 Jan. 2006

Ref no: 2501061

Concerning Part Name: PISL / M / N / R

Product Type: Power Inductor

Classification of Change: Manufacturing process

Description of Change: By fixing the wire terminal with an inventive clamping process at the hook of the clip, the gluing process on the terminal becomes unnecessary.

REASON: To further improve the wire termination robustness.

To continue to become a more environmentally friendly manufacturer in terms of reducing the use of chemicals.

Expected Influence: No influence on electrical parameter

Product Identification: Not applicable

Product Availability: Implementation date: 13/2/2006
